SUMMARY

Junior developer on the founding team at Zalio, building AI-native web products end to end with TypeScript, React, Node.js, Python and PostgreSQL. Works AI-first with coding agents such as Claude Code, Codex and GLM, while reviewing and owning every line that ships.

EXPERIENCE

Zalio (Momentum Health + Fitness)

Cebu City, Philippines (Hybrid)

Junior Developer, Founding Team

Jun 2026 – Present

- Joined early as part of the founding team; 130+ merged pull requests across 6 repositories in four months.
- Built the CRM's Campaign Tracker and Forms, used to run 3 campaigns; its forms have captured 51 sign-ups, including 25 Hasti enquiries and 17 through a secure signup webhook.
- Integrated Alex, Zalio's AI voice agent, into the Hasti landing page: visitors request a call to try Alex, and Alex captures their details as a lead.
- Running Alex's outreach and secret-shop calls, reaching ~200 businesses to date (71 completed calls, 82 follow-up emails); added phone-menu navigation and cut callback detection from 60s to 10s.
- Built core features of Zalio Marketing, an AI marketing studio: a TikTok and Instagram trend engine, AI creative briefs, and a timeline video editor that renders to MP4.
- Created Zalio UI, the shadcn/ui and Tailwind CSS design system for Zalio's apps, with 41 component tests.

Tech: TypeScript, React, TanStack Start, Next.js, Node.js, Python, FastAPI, PostgreSQL, LiveKit, Twilio, Docker

Lifewood Data Technologies

Cebu City, Philippines

AI-Assisted Full-Stack Web Developer (Intern)

Jun 2025 – Dec 2025

- Built training prototypes exploring machine learning, AI features and game development.

PROJECTS

SAM – Service Automation Manager

- Built a chat agent that books appointments end to end; n8n workflows log each booking to Google Sheets and Google Calendar, pause for payment and resume once paid.
- Added a live trace panel that shows each automation step as it runs.

Tech: Next.js, TypeScript, n8n, Groq (Llama 3.3), Google Sheets API, Google Calendar API, Zod

BK Basketball League Platform

- Built a real-time league site for standings, schedules, player stats and news, with a protected admin console for single-form box scores and automatic MVP selection.
- Standings are calculated from game results; shipped as an installable PWA with an offline cache.

Tech: React, Vite, TypeScript, Firebase (Firestore, Authentication), Tailwind CSS

SKILLS

Languages: TypeScript, JavaScript, Python, SQL, HTML, CSS

Frameworks: React, Next.js, TanStack Start, Node.js, FastAPI, Tailwind CSS, shadcn/ui

Data and DevOps: PostgreSQL, Firebase, Docker, Vercel, GitHub Actions, CI/CD, Git, Playwright, Vitest

AI and Automation: Claude Code, Codex, GLM, OpenRouter, Groq, LiveKit, Twilio, n8n

EDUCATION

Cebu Eastern College Inc.

Cebu City, Philippines

Bachelor of Science in Information Technology, Cum Laude

2022 – 2026

CERTIFICATIONS AND ACTIVITIES

- Certificate of Completion, Software Developer Intern – Lifewood Data Technologies (2025)
- Competitor, Collaborative Game Hackathon (team game build under time limits)
