SUMMARY

Full-stack software engineer on the founding team at Zalio, building AI-native web products end to end with TypeScript, React, Node.js, Python and PostgreSQL across Zalio's CRM, AI marketing studio, voice agent and design system. Works AI-first with coding agents such as Claude Code, while reviewing and owning every line that ships. BSIT graduate, Cum Laude.

EXPERIENCE

Zalio (Momentum Health + Fitness)

Cebu City, Philippines (Hybrid)

Junior Developer, Founding Team

Jun 2026 - Present

- Founding engineering team member; shipped 130+ merged pull requests across 6 production repositories.
- Zalio Marketing:** built the trend engine, AI-generated creative briefs, a CapCut-style video editor that renders MP4 with FFmpeg, and lead-attributed link-in-bio pages.
- Zalio CRM:** built the Campaign Tracker and Forms modules, including a drag-and-drop form builder, secure signup webhooks and a de-duplicated Meta Lead Ads sync.
- Alex AI voice agent:** added phone-menu navigation with keypad tones, voicemail detection, transcript-backed call reviews and callback tracking (27 merged pull requests).
- Zalio UI:** created the company design system, a shadcn/ui and Tailwind CSS component library with documentation used across Zalio's apps.

Tech: TypeScript, React, TanStack Start, Next.js, Node.js, Python, FastAPI, PostgreSQL, LiveKit, Twilio, n8n, Docker

Lifewood Data Technologies

Cebu City, Philippines

AI-Assisted Full-Stack Web Developer (Intern)

Jun 2025 - Dec 2025

- Developed web projects integrating machine learning, AI features and game development elements.
- Helped implement AI-driven features that improved user experience and system efficiency.

PROJECTS

SAM - Service Automation Manager

github.com/hakdogins27/pickleball-booking

- Built a chat agent that books appointments end to end; n8n workflows log each booking to Google Sheets and Google Calendar, pause for payment and resume once paid.
- Added a live trace panel that shows each automation step as it runs.

Tech: Next.js, TypeScript, n8n, Groq (Llama 3.3), Google Sheets API, Google Calendar API, Zod

BK Basketball League Platform

github.com/hakdogins27/BK

- Built a real-time league site for standings, schedules, player stats and news, with a protected admin console for single-form box scores and automatic MVP selection.
- Standings are calculated from game results; shipped as an installable PWA with an offline cache.

Tech: React, Vite, TypeScript, Firebase (Firestore, Authentication), Tailwind CSS

SKILLS

Languages: TypeScript, JavaScript, Python, SQL, HTML, CSS

Frontend: React, Next.js, TanStack Start, TanStack Query, Tailwind CSS, shadcn/ui, Framer Motion

Backend and Data: Node.js, FastAPI, PostgreSQL, Firebase, REST APIs, Webhooks, Zod

AI and Automation: LLM APIs (OpenRouter, Groq), Voice AI (LiveKit, Twilio), n8n, Prompt engineering, Claude Code

Tools and DevOps: Git, GitHub, GitHub Actions, CI/CD, Docker, Vercel, Vitest, Playwright, FFmpeg

EDUCATION

Cebu Eastern College Inc.

Cebu City, Philippines

Bachelor of Science in Information Technology, Cum Laude

2022 - 2026

CERTIFICATIONS AND ACTIVITIES

- Certificate of Completion, Software Developer Intern - Lifewood Data Technologies (2025)
- Competitor, Collaborative Game Hackathon - team challenge to design, script and launch a game under time limits
